

Dear GMX users,

I have developed a telegram channel where you can watch the current positions of the best GMX traders in real time, as well as notifications with their openings and closings.

Pro traders are being updated weekly based on past performance and consistent record of generating profit. Selecting those with high win rate, medium/low leverage, more than 15 total trades, high ROI and PnL.

Here you have an example of how the positions are displayed:

In the near future I am going to post more relevant information for trading crypto like macroeconomics data and crypto fundamentals.

Thank you very much for your time, I look forward to hearing back from you as well as your inputs of how can I improve the bot to provide better user experience.
