

As an investor I often trade between gmx and glp to rebalance my holdings.

It would be nice to have an option on the website (near the “buy gmx” / “stake” / “unstake” buttons) that will trade between gmx and glp or vice versa.

When clicking on the button you then choose the amount of gmx you want to convert and then the function will:

- unstake the request amount of gmx
- find the lowest fees coin (the coin with the lowest weight)
- buy and stake the glp
