

This thread is for proposing wallets/protocols as candidates for whitelisting in Lido referral program.

To propose a candidate for referral whitelisting, please submit a comment with the following information:

- Platform name
- Background information
- How you intend to make use of the Lido referral program

Perfect candidates for whitelisting would be the top wallets/protocols that could bring a big amount of ETH and new stakers.

All applications will be reviewed on a weekly basis. All relevant applications (wallets, protocols, frontend) are automatically approved with detected abuse cases leading to automatic exclusion from the program.

Backgroud

The Lido referral program was launched on July 19th 2021 by the Lido DAO based on the following [proposal](#).

Lido referral program was switched to 'whitelist mode' to improve the security and productivity by the DAO decision via [voting](#) on the following [proposal](#).
