

There was a lot of talk about this on the latest fireside chat. I suggest you watch it as most of your questions are answered there: [Numerai Fireside Chat with Richard Craib \(founder and CEO of Numerai\) and Anson Chu \(CTO\) | 2021 Q3 - YouTube](#)

Edit: TLDR: Numerai are aware of this issue and don't want to reward people for only submitting the example predictions and will introduce new payout methods in the future to counteract this.
