

Hey guys

I'm a bit out of the loop on Aave and crypto in general. So apologies if this is a newbie question but I'm just wondering what advice you had for swapping or selling Aave WETH?

I did see this on Coin Gecko

Where can you buy Aave WETH?

AWETH tokens have stopped trading 2 months ago on all exchanges listed on CoinGecko. Information will be updated if market activity resumes.

What is the daily trading volume of Aave WETH (AWETH)?

The trading volume of Aave WETH (AWETH) is \$122.96 in the last 24 hours, representing a 0.00% increase from one day ago and signalling a recent rise in market activity.

Thanks in advance.
