

My Idea is simple and will avoid an Airdrop of 90% to 5 % of adresses. Some of them already Lido Dao Token owner

50% distributed equally over all adresses with min 0.049 Eth

50% distributed by staked ETH excluding Doa Members with Lido Tokens beyond > 500.000 Tokens

LP Stakers should be not left behind.

Everybody here is early adopter ... i dont think there is difference joining 3 Weeks or 1 Week ago.
