Slate

, noun,

A fine-grained gray, green, or bluish metamorphic rock easily split into smooth, flat pieces.

Slate

is a group of ecosystem actors aspiring to support an Allocator SubDAO as an Allocator Advisor.

The Slate Team is Experienced

The Slate Team is a group of technologists and strategists with significant experience in technology, crypto, and entrepreneurship. Slate possesses deep knowledge of the Maker protocol as well full stack capabilities, from ecosystem development and branding to business development and technical support services.

Slate Values

Community Driven

Slate is an advisor. It aspires to support a SubDAO community but will never direct it.

UX First

Slate is highly motivated to consider and deliver a best in class UX for all SubDAO stakeholders.

Quality

Slate delivers the highest quality work as efficiently as possible.

Slate's Focus

Slate aspires to support a community to bootstrap a SubDAO with interest in serving Dai holders specifically in the APAC region. Slate will take direction from the community, facilitators, and other ecosystem actors to provide feedback and support services for the development of a SubDAO roadmap for consideration by an allocator SubDAO community.

We are excited to get the conversation started with the community!
