

Thanks to all the community members who voted in the STBP Council elections! We even saw some last-minute Sybil activity.

I would have been a bit disappointed if that wouldn't have happened!

The three council members are, in alphabetical order:

- [@dan-kintsugi](#)
- [@LeonoorsCryptoman](#)
- [@RealVovochka](#)

Please send me your Telegram usernames via DM so that I can make a group for us.

We're looking for one more multisig member. The position will be compensated with \$200 worth of tokens per month and requires signing from time to time after carefully checking transactions.

We would extend this position to the other candidates first. Maybe [@Aishwary](#), [@CodeKnight](#), [@sam](#), [@AbdullahUmar](#) or [@Sixty](#) would be interested? First come, first serve.

We're preparing the on-chain poll that will ratify the STBP and the council members in the meantime and will create the multisig as soon as we have the fifth member.
