

Dear GMX Gov,

I would like to present my Telegram bot which is designed to notify users on the positions of famous and leaderboard top traders. The bot provides valuable insights to users and has the potential to attract new traders to your platform.

As a dedicated user of your platform, I believe that this bot can be of great benefit to both your users and the platform as a whole. In order to continue the development of this project, I am kindly requesting a small amount of funding from the GMX team - 1k USD. This funding will be used to cover costs associated with dedicated hosting, paid API services, and further bot development.

I'm going to add 3rd party ETH/BTC signals as well.

Thank you for your time and consideration. I look forward to hearing back from you.
