

Community Lifeguard Eridian hosts Will Shannon, a Lido DAO contributor who supports node operators. They discuss Will's background, how he came to crypto and then to Lido, and how his views evolved as he learned more about Lido. The plans for a Simple DVT module are explained and community questions and concerns are debated.

It's great to hear a range of voices and opinions on this Community Staking Podcast and if anyone would like to be a guest on a future episode please reach out to [@Eridian](#) on TG or X.
