

# Using Paymaster and Biconomy Dashboard

Now, let's setup our biconomy dashboard. Follow the instructions [on this page](#) .

Before continuing onto the the next step be sure that you have completed the following:

- Created an account on the Biconomy Dashboard.
- Register a new paymaster on the Dashboard.
- Get the [Paymaster URL](#)
- and
- bundler URL from dashboard.
- Set up a Gas tank with at least 1-2 testnet Matic tokens.
- Whitelisting the increment count method of the counter smart contract under [Paymaster Rules](#)
- on dashboard [Previous Counter Smart Contract Next Initialize Frontend](#)
