

Hi dYdX Community,

We're happy to announce some new updates to our forum! Here's what's new:

## New Forum Theme and UI Enhancements

### Updated Design

:

We've updated the forum with dYdX branding, round shapes, and better color matching.

### Improved User Profiles

:

You can now view users in a new view. [Check out the new user view here](#)

### Reader Mode:

This mode emphasizes the written content by fading other UI elements into the background.

### GraphViz Integration:

Now you can include detailed graphs in your posts using the DOT language. [Learn more about GraphViz integration.](#)

### Theme Switching:

If you prefer the previous theme, you can switch back by clicking the brush button in the bottom left corner and selecting "dYdX Theme (old)."

## Understanding Trust Levels

Here's a quick overview of our trust levels to clear up any confusion:

### Trust Level 0

:

New users begin at Trust Level 0, which allows liking and commenting but restricts topic creation and private messaging to avoid spam and bad actors.

### Trust Level 1

:

After spending some time engaging with the forum, users are automatically promoted to Trust Level 1, allowing them to create new topics.

Advancing through trust levels unlocks more features and reduces restrictions.

We hope you enjoy these updates! Please share your feedback and suggestions with us.

Thanks for being part of the dYdX community!

Cheers.
