

Hey y'all,

I've received a grant from Uniswap whereby if the fee switch were turned on, what are some potential options this revenue go towards. Part of this research will be qualitative so I'm super keen on speaking to members of the uniswap community. Since the topics I'm researching touch various aspects of the uniswap protocol - I'm hoping to speak with a wide range of community members. In particular, I'd be incredibly grateful if I could speak with people that a) those that are active/ have an interest in uniswap governance b) small through large Uniswap holders c) current/ future/ past Uniswap grantees d) liquidity providers and e) are there any personas you think I have missed out?

This would be up to an hours zoom call that I'd like to happen in the first two weeks of January (but please if date/ time constraints/ method of interview are uncomfortable for you please do say and I can be flexible).

For those that would be interested, please drop me a msg on dm, telegram (@lsthismnow

?), email (charles@blocksmith.tech), twitter (@blocksmithtech

) or drop your preferred contact method below.
