

Karma was the recipient of two grants in Season 2.

1. [Grant 1](#): To build a Delegate dashboard to show delegate activity and stats
2. [Grant 2](#): Enhance Discourse forum plugin to streamline delegate activity.

We are grateful to the DAO for awarding us this grant and we are eager to help build tools to improve governance. We created this thread to

1. Share our progress and hold ourselves accountable
2. Solicit feedback from the community on tools we are building for Optimism and how we can make it better
