

Hi secret community,

I am trying to make a tally of who is going to be running a validator, with the upcoming Secret Network Vulcan Upgrade.

If you are one of the people/groups/organizations please comment on this thread whether you are running a Validator after the Vulcan upgrade.

State your name or organization (You can also just state your moniker).

Do you have working hardware already ready set to go? Have you had any issues with setup?

Cheers

Update:

[Secure Secrets](#) will be running a validator, when we come to the Vulcan upgrade.

We are trying to see who is going to be able to continue(Or be a new one) to be validator.

- Yes
- No
