

Hi community,

Posting some thoughts on alternative designs for a ZKEVM, would love to receive some feedback.

[Details](#) of this article can be found in Sin7Y's HackMD channel.

About us

Founded in 2021 and powered by top-notch blockchain developers, Sin7Y is a project incubator and blockchain technology research team that explores the most important and cutting-edge technologies, including EVM, Layer2, cross-chain, privacy computing, autonomous payment solutions, etc.
