

byte_serialize_params

Functions

argSerializerConstructor()

function

argSerializerConstructor (arbProvider : Provider) :

(params : PrimitiveOrPrimitiveArray [])

=>

Promise < Uint8Array

to use:

const mySerializeParamsFunction =

argSerializerConstructor ("rpcurl") mySerializeParamsFunction (["4" , "5" ,
"6"])

Parameters

Parameter Type arbProvider Provider

Returns

Function

Parameters

Parameter Type params PrimitiveOrPrimitiveArray []

Returns

Promise <Uint8Array
