

Reduce UNI Governance Proposal & Quorum Thresholds

Is a proposal by Gauntlet@[Tarun](#) and Dharma. Currently up for vote. It stems from the community discussion:

[Proposal: Reduce amount of UNIs required to submit governance proposal](#)

the proposal by Gauntlet@[Tarun](#) and Dharma proposes not one, but two things:

1. Lowers proposal threshold from 10M to 3M UNI
2. Lowers quorum threshold from 40M to 30M UNI

These are two distinct changes with two VERY different consequences.

THEY SHOULD THEREFORE BE TWO DISTINCT PROPOSALS.

We, as a community, should be VERY wary of proposals including changes that are NOT core to the main proposal.

These are called "[Riders](#)"

And should not

be welcomed into uniswap governance!

VOTE AGAINST. SPLIT IT UP.
