

Hi,

on the first of May 2022 I tried to mint 2 Otherside NFTs. As I transferred 610 APE from Binance to my Metamask 610 APE were transferred back to the wallet that belongs to APE Coin. I mailed the support team with all the screenshots of the etherscan etc. nobody replied. Now my lawyer tells me to sue but I would be thankful to find a solution so I can save the suing costs. Hope someone here can help me out. Thanks
