

Chat and discussion forums

Connect with the Filecoin community in discussion forums or on IRC. The Filecoin community is active and here to answer your questions in your channel of choice.

Chat

For shorter-lived discussions, our community chat open to all on both Slack and Matrix, with bridged channels allowing you to participate in the same conversations from either platform:

- [Slack](#)
- [Matrix](#)
-

Discussion Forums

For long-lived discussions and for support, please use the [discussion tab on GitHub](#) instead of Slack or Matrix. It's easy for complex discussions to get lost in a sea of new messages on those chat platforms, and posting longer discussions and support requests on the forums helps future visitors, too.
