

Hello Secret Network! We are a Geeks team, the one building Lorem Ipsum Metaverse, the first one on Secret Network and IBC. One month has passed since our Metaverse launch, and now we can say that the concept and the tech is working as intended, so we are ready to open the Metaverse to the public and integrate new features that can benefit the community.

Here's what we propose:

1. Open the Metaverse for everyone.

We believe that opening Lorem Ipsum to the public will boost interest in Metaverse, attract more users and projects, and thus will attract more attention to Secret Network.

1. Enable live streaming and broadcasting from Youtube and Twitch to the Metaverse.

Streaming and broadcasting opens a whole new world of use cases. Secret Summit, Secret DJ sessions, Agents of the round table and others will be able to broadcast their events to the Metaverse live or recorded.

Users willing to stream their events or videos will be able to access the admin dashboard and select a free time slot. We will also add link validation to ensure the broadcast happens successfully.

Support, educational and promotional materials, events organization and server maintenance are all on behalf of Geeks Foundation.

The Metaverse market is expected to be worth billions of dollars, so we believe it's very important to establish Secret Network presence in the industry as early as possible, start working on the use-cases and attract the public.

Our team:

Kate – Lead Designer (anons.army, alter, secretcalendar, scg ux/ui design)

Solomon – Art Director and Project Manager (top20 dribbble projects management)

Vlad – Marketing and Community Advisor (citadel.one head of community and pr)

Martin - Dev Lead (IBC NFTs, secretcalendar dev)

Total ask: \$15,540
