

Get ZKsync Era testnet ETH

We recommend using a wallet such as [MetaMask](#) to store your funds. Use the [Chainstack](#) or [LearnWeb3](#) faucet to claim ZKsync Sepolia ETH.

Alternatively, obtain Sepolia ETH using the [Infura faucet](#) and [bridge your funds](#) .

see also See the [official ZKsync Era documentation](#) for more information about bridging funds and using the network.
