

Welcome

Welcome to Dynamic! We're so excited that you're here!

This documentation site is for V1 and above of the SDK only, if you need to upgrade to V1, please follow [this guide](#)

What is Dynamic?

Dynamic offers smart and beautiful login flows for crypto-native users, simple onboarding flows for everyone else, and powerful developer tools that go beyond authentication.

Support & Feedback

You can reach out to us at any time for questions, issues, concerns, product ideas, or random thoughts. Here are some ways to do so:

- Join our Slack community [here](#)
- Send us a tweet or DM us at [dynamic](#)
- Email us at [\[email protected\]](#)

You can also bug our founders at any point at [\[email protected\]](#) (tell us anything that's on your mind - the good and the bad).
