

I was just watching this retrospective from the RPGF1 round (January 2022):

I really enjoyed it. It gave me important insights into the history of RPGF, put faces on some of the early contributors to the process, allowed me to reflect on some of the questions that they considered - and so, to better understand this thing that I have just recently been invited to become a part of.

And that made me think: What other resources might it be beneficial for new (or future) badgeholders to have a look at in order to educate themselves and get up to speed?
