

# Lobster NFT's

[source ui for claiming the nfts](#)

[read more about lobsterdao](#)

Manifold Finance is now the proud owner of 6 LobsterDAO NFT's

<https://etherscan.io/token/0x026224a2940bfe258d0dbe947919b62fe321f042?a=0x086132af06003626b03b850bead54f5ca68543b0>

[This address currently holds them](#) These were generated in the course of my work for Manifold Finance; ergo, they belong to all token holders.

The total cost in claiming them (ETH) was less than \$1,100 USD.

The current value is at around \$204,000 USD

What should we do?

Note: this is not a vote to do anything, instead it is an informal poll to find what people are thinking
