

Emergency

In addition to the standard ops and treasury multisigs, Ambient governance includes an emergency authority reserved for unexpected cases when user funds are in immediate danger of loss.

Emergency authority is delegated at theCrocPolicy contract and has the following powers:

- Force the DEX contract into safe mode
- , where only operations related to simple fund withdrawals are allowed.
- Forcibly uninstall a policy oracle.
- Standard ops multisig abilities
-

Currently emergency authority power is delegated to the treasury multisig and is subject to the same timelock.
