

Hello ApeCoin DAO Community,

A recent backend security update has affected some of our community, leading to potential wallet connectivity issues. Some of you may have noticed that you were unable to create or reply to topics. If you have been unable to resolve this issue please try reconnecting your Discourse wallet. This can be done by navigating to Preferences > Wallet > Connecting with your preferred wallet.

Your patience regarding this matter is greatly appreciated. If you have any additional questions, please feel free to contact the [@Facilitators](#) .

Happy Holidays,

-ApeCoin DAO Community Discourse Facilitators
