

Hello to the community!

Today I'm happy to announce that Carter Woetzel ([@Carter-Woetzel](#)) will be joining Secret Foundation as a marketing and community manager. His contributions to the network and community, especially on education and content creation, have been invaluable as Secret Network has expanded. I am pleased that he will be committing full time to helping us achieve global adoption for open-source, privacy-centric technologies

I'll let him introduce himself here in this thread, and he will also be joining us tonight at the Secret Agent Rally on Discord (<https://chat.scrt.network>). Please share your well-wishes below as well!

Cheers to Carter!
