

Installation

How to install Scribble

Install using NPM

Make sure that you're using the right version of NodeJS. Scribble0.6.4 and earlier work with NodeJS versions between10.0.0 and12.0.0 . Scribble0.6.5 and later work with NodeJS16.0.x . To install, run the following command:

```

Copy `npm install -g eth-scribble`

```

If you're seeingEACCESS errors on Linux/MacOS check out this[post](#) on stackoverflow.

Build from source

You can also install Scribble directly from the git repository:

```

Copy `git clone git@github.com:ConsenSys/scribble.git`  
`cd scribble`  
`npm install`  
`npm link`
