

This is going to be a fairly informal proposal, but I want to propose giving \$2000 USD (~500 SCRT) to the following for their contributions during the influx of users:

- [@reversesigh](#)
- [@MrGarbonzo](#)
- [@dylanschultzie](#) (edited in by request)

Both of them were extremely diligent and, in my opinion, went far above the call to action to help support the network.

This may seem like a lot for a few days work, but were they not there, providing support, the entire network would have lost far more due to the poor experience.

I know [@reversesigh](#) also went through their entire stash of SCRT in order to help those needing funds for bridging, to say nothing of the time they spent on Discord helping with Keplr wallet issues, viewing key issues, etc.

edit: by request of [@lowascero](#) I'm adding myself to this list for the support I provided post-exploit and with the current influx of users.
