

Hi, I'm looking for the most recent Casper FFB spec for Eth2.0.

On Eth2.0 [github pages](#) there is nothing about Casper.

The arxiv paper: [Casper the Friendly Finality Gadget](#) got some updates, but didn't have time to analyze changes, so not sure if it's just minor / style updates or the updates to the most recent spec.

Also, is [@vbuterin Casper Note](#) still up-to-date?

All best.
