The dream of redistributing the extracted value

“Science is not enough, religion is not enough, art is not enough, politics and economics are not enough, nor is love, nor is duty, nor is action, however disinterested, nor, however sublime, is contemplation. Nothing short of everything will really do.”
– Aldous Huxley

Economic History

“once the global system of credit money was entirely unpegged from gold, the world entered a new financial history – one that nobody completely understands.” – David Graeber

[course] Economics of money and banking [course] Global history of capitalism [article, 1935] What is money for? [book, 1973] Small is beautiful [book, 2004] Caliban and the witch [book, 2011] Sacred economics [book, 2011] Debt [book, 2015] The mushroom at the end of the world [book, 2018] Bullshit jobs

Protocol Design

“Gradually, the economic language of transactional relationships based on calculations, labor, debt, payments, returns, and wages need to be replaced by a metabolic language of dis-eased exchanges” – Vanessa Machado de Oliveira

[course] Game theory 1 [course] Game theory 2 [article, 1970] On the measurement of inequality [article, 1971] Optimal taxation and public production I [article, 1971] Optimal taxation and public production II [article, 1976] The design of tax structure [article, 1977] Is the price system or rationing more effective in getting a commodity to those who need it most? [article, 1991] Public provision of public goods and the redistribution of income [article, 2003] Maps of bounded rationality [article, 2013] Market and non-market mechanisms for the optimal allocation of scarce resources [article, 217] Property is only another name for monopoly [article, 2020] Redistributive allocation mechanisms [article, 2022] Constant function market making, social welfare and maximal extractable value [presentation, 2022] Ultra Sound Money
