Truffle Shavings

Truffle Boilerplate with solium, linguist, zeppelin, migrations, tests &tc

Install

```
git clone git@github.com:okwme/truffle-shavings.git cd truffle shavings yarn
```

or

```
npm truffle unbox okwme/truffle-shavings
```

// then create a .env file that looks like this:

```
TRUFFLE_MNEMONIC=candy maple cake sugar pudding cream honey rich smooth crumble sweet treat  
GANACHE_MNEMONIC=grid voyage cream cry fence load stove sort grief fuel room save TESTNET_MNEMONIC=a  
twelve word mnemonic phrase that works with some test network buddy INFURA_API_KEY=yOURInfURaKey
```

Run

```
yarn lint:watch
```

Test

```
truffle develop yarn test
```

Deploy

```
truffle develop yarn deploy --network develop
```

// this just runs truffle migrate --reset --compile-all
