

Hi community, this is Zoe from Unboxing Labs.

We aim to provide accurate, hyper-granular, and interpretable financial reports for Web3 DAOs so that Web3 finance doesn't remain as an uninterpretable area.

We first unboxed BendDAO ([\[Final\] Unboxing BendDAO #06 - Full Financial Statements](#)) and being very satisfied, they recently announced us to be their official contributor for their financial reports.

<https://twitter.com/unboxingLabs/status/1635224121603923968?s=20>

I've heard that [@Llamaxyz](#) will soon no longer be providing the financial reports, so was wondering if the Aave community would want us to provide those financial reports instead which will be in much more depth as those in traditional finance. Please feel free to comment here or email me (zoe@contxts.io) for more info or idea.
