

Hey there folks!

Misang from Confio, the team behind the CosmWasm runtime that we use for Secret Contracts, has called out to our community asking for feedback about working with and using CosmWasm. This is her call to developers:

Hello everyone! If you have worked with CosmWasm, please leave your feedback here [Form](#)

Many thanks in advance, your opinions will be very important to improve Secret & CosmWasm dev experience in the future.
