

gm Uniswap!

My name is [Joel](#) and I'm a governance analyst at [Messari](#). We're happy to announce that we recently upgraded our DAO profiles on Governor!

Aside from the coverage of proposals (for free users), we now provide rich on-chain and off-chain analytics for [Uniswap](#) for Pro & Enterprise users.

This includes:

- Delegate metrics: voting power breakdown, their voting power growth over time, and recent voting activity

[

Any feedback is welcomed!

Hoping the community finds these metrics valuable
