

Hello, everyone!

I'm excited to make this new thread dedicated to brainstorming and discussing ideas for the Spark Community Purpose Committee.

Please consider this thread as your platform to share innovative ideas, thoughtful feedback, and creative suggestions.

## **Engaging with Purpose**

As the community tries to shape the committee's focus, it's crucial to gather a diverse range of perspectives and insights. Your experiences, whether from within the MakerDAO community, Spark Community or beyond, provide valuable context that can help guide the decisions.

- How can the Purpose Committee most effectively contribute to the community and the public?
- What specific initiatives would you like to see undertaken?
- How can it be ensured that the committee's efforts align with the core values of the Spark SubDAO?
- What are some diverse approaches or models from around the world, that the Purpose Committee could explore to enrich its understanding and actions towards public good?

Please consider using this thread as a platform to share your insights, suggestions, and innovative ideas. Whether you're currently involved in community activities or just have relevant experiences or concepts to share, your input is invaluable.

Remember, the topics and focus of future posts in this thread may vary widely as we delve deeper into different aspects of the committee's work.
