Summary

This proposal presents Aave with the opportunity to onboard GMX to the Arbitrum v3 Liquidity Pool.

Motivation

GMX is one of the largest DeFi's offering derivatives and is currently one of the most popular DeFi's. GMX is also one of the most heavily traded assets and the market demand is very high.

It has never been listed on Aave in the past, so it needs to be carefully considered.

Specification

1. About the author of ARC

LensProfile : <https://lensfrens.xyz/0xlide.lens>

1. Provide a brief high-level overview of the project and the token

GMX is a decentralized spot and permanent exchange supporting low swap fees and zero price impact trading GMX is the market leader in Derivatives with \$544 million TVL in two deployments and is #20

on Defi Llama's TVL Dashboard It is ranked #20

on Defi Llama's TVL Dashboard.

GMX, the platform's utility and governance token, is ranked #68

above MKR on coingecko's Market Cap Rank.

1. Token Data

token contract: 0xfc5A1A6EB076a2C7aD06eD22C90d7E710E35ad0a

Holders: 250,000 addresses~

Total Supply: 9,000,000 GMX~

1. Market Data

Market Cap

Volume (24H): \$217,622,327.00

Circulating Supply: 8,549,848.00 GMX
