

I feel very uncomfortable making mocks for graphs, so let's take this as a rough way to bootstrap the brainstorming for what we want and need to see in the data transparency dashboards.

I've been playing with excalidraw:

[Excalidraw](#)

Excalidraw is a whiteboard tool that lets you easily sketch diagrams that have a hand-drawn feel to them.

If there's a piece of data that you need for your operation, or some information that you would like to visualize, please describe it here.
