Conjure.Finance allows anyone to create tokenized assets representing any asset you can imagine

[addrs.to](#)

## [addrs](#)

Send and receive your favorite crypto without touching any long addresses

Very technical. Very direct. OPs currently the most interesting network to build on for me as the people seem the most engaged and aligned, the grants allow people like me to keep building cool shit and the mission fits my general view on the space wrt bringing crypto to the most people possible.

Conflict of Interest Disclosure

1. I am a co-founder of Scry, addrs, Hedge, Conjure, Cryptodevs, Signet

Note:

I'm very forward, its not personal, just my comm style.
