

eth_getBalance

Returns the balance of the account of a given address.

Parameters

- address
 - : [Required]
 -] A string representing the address (20 bytes) to check for balance.
- block parameter
 - : [Required]
 -] A hexadecimal block number, or one of the string tagslatest, earliest, pending, or finalized
 - . See the [default block parameter](#)
 - .
 - warning
 - safe
 - isn't supported. Use finalized
 - instead.

Returns

A hexadecimal of the current balance in the account at the given address. The balance is in wei.

Example

Replace YOUR-API-KEY with an API key from your [Infura dashboard](#) .
