## Motivation

Details on your motivation for becoming an ApeCoin DAO Governance WG Steward

I can not even express how much this DAO means to me.

Not just how i got here by chance but who i met & connected with and how this is and will affect many of us. I was to keep it operationally professional orderly and IRL inviting, transparency is a must and things on time done as needed.

2 years ago I was hit by a car and still on physical recovery, which i took as opportunity to dive even deeper into WEB3, wrote a first WEB3 book with apes, helps some develop stories for the future projects, became a part of some white papers , speaker at conferences, tester for WEB3 games, part of multiple full IP rights NFT communities besides just being DEFI & stock person (including one of those OG apes AMS/GME that DRS... on which BAYC was bases to OMENAJE in part as founders mentioned at their interview), Became an ape, miss the yacht... , get into Apecoin DAO from day zero practically and was amazed by all people coming here and brainstorming together, became WG0 non payed steward, start spreading my experience at IRLs & conferences. And I cant stop continue helping.

So its a good time for me to finally make it official & apply.

Thank you all so much for considering me & being you, bringing innovation , light & build opportunities here & just helping others. Now you tell me what else you need from me and I will look into it how its can be done.
