

Welcome to the forum!

Feel free to introduce yourself in whatever way you prefer in order to break the ice and make it easier to connect with peers. You may also set up a snazzy [Custom Status](#) to associate your account with an organization or team.

Some inspirational questions that may guide you your introduction in this thread:

- Which parts of the MEV landscape are you interested in?
- Are you involved in any initiatives or projects working on MEV?
- What is your experience with the Flashbots products and research?
- Are you part of any other communities in the broader ecosystem of MEV/Ethereum/crypto?
- What is your favorite robot?

You're welcome to share your Github, Twitter, Discord and similar information if you wish.

Please make sure to read our [Code of Conduct](#) and be kind to your fellow community members.
