

Hey,

a friendly reminder, that we're having a third Open Governance Call today!

The call will take place again on Google Meet: meet.google.com/ouo-uskg-niq today at 4pm UTC (same as last time).

I propose the following agenda:

- AIP-1.1 & AIP-1.2 passed, what's next?
- AIP-1.1 issue discussion
- update from the Foundation on the current issues
- upcoming Security Council Elections
- the question regarding if off-chain changes require on-chain vote
- other issues

Proposals to discuss:

- Activate support for account abstraction endpoint on One and Nova
- Grant Frameworks
- Rarible Protocol - Arbitrum Integration Proposal
- other proposals

We will record the call and publish it later on for a public review, so please keep that in mind.

Hope to see you all today!
