

I love this. You do so much work to keep things tight within the community and it makes a lot of sense to have it pulled officially from Numerai funding and make it a part of the CoE sponsorship. This way, no topics can go unheard and you will have a lot more free rein on content. Lets do this! Also wanted to have side vote that [@jeremy_berros](#) CoE coin logo be the official sponsor logo on the steams if he approves as well

Also, CoE youtube would be sweet and a bit more comms about things in the twitter account
