

Try It Out

Want to see World ID in action? Check it out below.

Incognito Actions Sign in with World ID Here you can test out various Incognito Actions configurations, including ones that will fail (such as a device-verified user attempting an action requiring Orb verification). Step 1 • Choose Staging or Production Staging Use the simulator Production Use the World App Step 2 • configure action Action Minimum Verification Level Orb Device Step 3 • this is what your users see Try it out Continue with Worldcoin
