

Lido DAO Community,

I would like to inform you about a recent decision made by a group of Lido DAO Contributors. We have established [Voteron multisig](#) for snapshot voting, which serves as a non-official delegate for contributors who are unable to vote due to various reasons, including lack of capacity, vacation, or simply want to delegate their voting power (VP) to a group of initiative contributors.

The Voteron multisig consists of six signers and uses a 2/6 scheme for voting. Two more signers would be added and the scheme would be changed to 3/8 till mid-June.

Voteron doesn't accept non-contributors signers. We want to keep consistency and save alliance in values by only contributors signers.
