

In which [@socrates1024](#) and I will be joined by the amazing [Deli Gong](#) and [Zheng Leong Chua \(@czl\)](#) from [Automata](#) for demos and discussions.

Featured will be:

- The most recent TEE speedrun under 1000 LoC

prototypes - [dstack \(@socrates1024\)](#)

- Automata's [recently open-sourced](#) [on-chain PCCS

](<https://github.com/automata-network/automata-on-chain-pccs>)

- and [RiscZero-powered ZK SNARK proofs of attestation

](<https://github.com/automata-network/dcap-rs?tab=readme-ov-file>) that reduce gas needed for on-chain verification of attestations by 16x

!

- A discussion of how the above can together disrupt how TEEs and blockchains interact
