

i'm Monica Urrutia I'm from Catalunya and i'm working towards onboarding people on web3 in Catalan language. I'm going to give a class on Arbitrum NFTs in Barcelona on wednesday, and I need a fair amount of Sepolia ETH for my students. I want to run an exercise and would like my class to use them. The faucet only allows me to obtain a small amount every 72 hours. Could anyone help me out, please?
