

# Multisigs

CoW DAO uses [Safe](#) to manage its funds and operations. The following safes are currently deployed:

Name Description Chain [CoW DAO](#) 0xcA771eda0c70aA7d053aB1B25004559B918FE662

Main DAO safe bound to COW token holder votes on cow.eth snapshot space Mainnet [CoW DAO \(USDC\)](#)  
0xA1cb7762F40318ee0260F53e15De835fF001cb7E

Safe controlled by CoW DAO dedicated for storing USDC Mainnet [Solver payouts](#)  
0xA03be496e67Ec29bC62F01a428683D7F9c204930

Responsible for executing solver payouts according to the DAO-defined [solver accounting rules](#) ; it receives collected fees from the settlement contract Mainnet [Solver controller](#) 0x423cEc87f19F0778f549846e0801ee267a917935

Responsible for adding / removing solvers from the settlement contract allow-list, according to DAO-defined solver bonding rules; it also converts the collected protocol fees to ETH Mainnet [CoW Treasury](#)  
0x616dE58c011F8736fa20c7Ae5352F7f6FB9F0669

Managed with support of Karpatkey DAO to generate yield on idle treasury funds Mainnet [CoW DAO \(GC\)](#)  
0xcA771eda0c70aA7d053aB1B25004559B918FE662

CoW DAO main safe on Gnosis Chain GC [Grants Committee](#) 0xCA1F000D520c21C47E6c634DD31b92b91A6338bD

Controlled by 7 committee members, responsible for funding CoW Grants GC [Grants Funds](#)  
0xDA00000B30dCf0C3f5d968e4451Ebdee6950d63e

Controlled by CoW DAO and Grants Committee to allow CoW DAO clawback of grants funds GC [Grant Funds \(Volume-based Partner Reward Program - COW\)](#) 0xbD96C4Fe53f1d89a8Bdb3522BCEDfB20b5601b69

Controlled by CoW DAO and Grants Committee to allow CoW DAO clawback of grants funds GC [Edit this page](#) [Previous CIP Template](#) [Next Snapshot \(Voting\)](#)
